NITRO MANUFACTURING TO ACQUIRE MOTORSPORTS TEMPLATE SERVICES FROM RICHARDSON RACING PRODUCTS

MOORESVILLE, N.C. (July 20, 2022) – Nitro Manufacturing announced today the acquisition of the motorsports template services from Richardson Racing Products. Nitro Manufacturing will now become the leading supplier of motorsports templates for race teams, racing series and sanctioning bodies throughout the motorsports industry and beyond.

Nitro Manufacturing has over 40 years of combined industry experience in metal fabrication, quality control and product design. Each project executed is thoroughly developed from start to finish to produce the best result for each customer's specific need.

"I'd like to thank Steve Richardson and Richardson Racing Products for their years of great service to our industry. We look forward to working with him in this transition and wish him all the best on his retirement," said Dan Timmons, President and Head of Design and Engineering, Nitro Manufacturing. "We're excited to continue to diversify our business and hope our many years of racing experience provide a seamless transition into the future."

Nitro Manufacturing provides many additional services and product offerings some of which include CAD and pit box design, CNC machining, waterjet and laser etching, surface plate design, service, and installation, and go-kart racing products. For more information on product offerings visit www.nitromfg.com or visit our office located at 510 Performance Road, Mooresville, NC 28115.

About Nitro Manufacturing - Nitro Manufacturing is a full-service fabrication shop specializing in the design, engineering, prototyping and fabrication of custom crafted metal equipment. We have the knowledge, equipment, and resources to offer customers a one-stop shop for custom or commercial projects.
